## Project Design Phase-II Solution Requirements (Functional & Non-functional)

| Date          | 18 september 2022                     |
|---------------|---------------------------------------|
| Team ID       | PNT2022TMID43844                      |
| Project Name  | Smart Fashion Recommender Application |
| Maximum Marks | 4 Marks                               |

## **Functional Requirements:**

| FR No. | Functional Requirement (Epic) | Sub Requirement (Story / Sub-Task)  |
|--------|-------------------------------|---|
| FR-1   | User Registration             | Registration through Form Registration through Gmail Registration through mobile number Registration through LinkedIn |
| FR-2   | User Confirmation             | Confirmation via Email Confirmation via OTP   |
| FR-3   | Advanced Search Capabilities  | sorting and filtering options   |
| FR-4   | Checking item availability    | in specific locations   |
| FR-5   | Shopping cart                 | My cart button Add-to-cart button Remove-from-cart button   |
| FR-6   | Super-fast checkout           | Online transfer, credit card payment, paying with mobile wallets  |
| FR-7   | Checking the shipping status  | Option to easily check the shipping status of items ordered in the store  |

## **Non-functional Requirements:**

| FR No. | Non-Functional Requirement | Description   |
|--------|----------------------------|---|
| NFR-1  | Usability                  | Specific user in a specific context can use a product/design to achieve a defined goal effectively, efficiently and satisfactorily.   |
| NFR-2  | Security                   | This Application will collect a lot of users' private information to complete a purchase (banking, shipping/home address, email, etc.) Data protection is the priority.                                     |
| NFR-3  | Reliability                | Ability of the software to perform critical tasks like collecting and securing customer data, and providing a payment gateway to function correctly in a given environment, for a particular amount of time |
| NFR-4  | Performance                | Online shopping behavior is no different from offline — people love places and platforms that help them to find the best deals and products in a single place with minimal effort                           |
| NFR-5  | Availability               | Online consumers do not adhere to closing times. Information should be available wherever and whenever required within a time limit specified.  |
| NFR-6  | Scalability                | Having a plan to handle demand peaks. Avoid downtime, preserve the customer experience, and ensure deliveries go out on time at all costs   |
